

ORBCOMM RELOCATES CORPORATE HEADQUARTERS

Fort Lee, NJ, February 15, 2013 – ORBCOMM Inc. (Nasdaq: ORBC), a global satellite data communications company specializing in two-way Machine-to-Machine (M2M) communications, today announced that it will be relocating its corporate headquarters from Fort Lee, New Jersey to Rochelle Park, New Jersey on February 19, 2013.

“The move to Rochelle Park represents another step forward during this exciting time in our business,” said Marc Eisenberg, Chief Executive Officer. “The new facility will allow us to bring together key management and sales and engineering capabilities for a more efficient and effective use of resources, while we execute on our growth initiatives and prepare for the launch of our next generation satellites.”

ORBCOMM is leasing more than 31,000 square feet at the office complex, Mack-Cali Centre V, in Rochelle Park, New Jersey. The company will be combining the corporate offices at Fort Lee, New Jersey and the StarTrak facilities in Morris Plains, New Jersey and will be able to accommodate the company’s future growth plans. StarTrak employees are expected to be in the new facility in the second quarter.

ORBCOMM’s new address will be:

395 West Passaic Street, Suite 325
Rochelle Park, NJ 07662

All phone numbers and email addresses will remain the same.

About ORBCOMM Inc.

ORBCOMM is a leading global satellite data communications company, specializing in Machine-to-Machine (M2M) communications. Its customers include Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery, and Hyundai Heavy Industries, Asset Intelligence (a subsidiary of I.D. Systems, Inc.), Komatsu Ltd., Manitowoc Crane Companies, Inc., and Volvo Construction Equipment among other industry leaders. By means of a global network of low-earth orbit (LEO) satellites and accompanying ground infrastructure, ORBCOMM’s low-cost and reliable two-way data communication services track, monitor and control mobile and fixed assets in our core markets: commercial transportation; heavy equipment; industrial fixed assets; marine and homeland security. ORBCOMM based products are installed on trucks, containers, marine vessels, locomotives, backhoes, pipelines, oil wells, utility meters, storage tanks and other assets. ORBCOMM is an innovator and leading provider of solution services for the refrigerated and transportation markets. Under its ReeferTrak,[®] GenTrak,[™] and CargoWatch[™] brands, the Company provides customers with the ability to proactively monitor, manage and remotely control their refrigerated and transportation assets. Additionally, ORBCOMM provides Automatic Identification System (AIS) data services for vessel tracking and to improve maritime safety to government and commercial customers worldwide. ORBCOMM is headquartered in Fort Lee, New Jersey and has its network control center in Dulles, Virginia. For more information, visit www.orbcomm.com.
